

YCVSC Player Injury Policy

The purpose of this policy is to provide guidance on when a credit may be given or fees may be reduced because a player has suffered an injury during or prior to the season. This policy addresses two distinct situations - where the player is injured during the playing season and where the player is injured before the start of the season.

When a player is injured during the playing season a credit will be issued for fees for the next season. Player fees will not be refunded.

When a player is injured prior to the start of a season, but is expected to be able to play at least a part of the season a player may receive a reduction in fees for the upcoming season.

To qualify for a credit

- 1) The player's card shall be submitted to the Registrar with a note indicating that the player is injured and the date the injury occurred. The player card should be submitted as soon as possible after the player is sure they will be sitting out for a significant period of the season.
- 2) The player must have missed at least $\frac{1}{2}$ of the regular season games.
- 3) The family shall send a written note asking for a credit for the following season.
- 4) The player card will not be returned until a doctor's note is provided that clears the player to participate.

To qualify for a fee reduction

- 1) The player's card shall be in the Registrar's possession
- 2) The player shall provide a Doctor's note indicating how long he/she should refrain from playing. The indicated time should keep the player from playing in at least $\frac{1}{2}$ of the regular season games.
- 3) The family shall send a written note asking for a fee reduction for the current season.
- 4) The player card will not be returned/issued until a doctor's note is provided that clears the player to participate and all fees are paid.

The Board of Directors will make an assessment as to the amount of the credit or fee reduction. The maximum amount that can be granted is a 50% credit/reduction.
